WORK EXPERIENCE

Co-founder and Tech Lead

September 2018 – Present

Coding Hub, Plattsburgh, NY • www.coding-hub.com

- Organized and leaded weekly Scrum meeting with project members.
- Implemented software solutions that improved college experience through web and mobile applications.
- Developed cross-platform mobile applications and RESTful APIs for server-side with Flutter and Express JS.

.NET Developer Intern

May 2018 – August 2018

Innovation Technology Development Corporation

- Directed internship team to deliver a desktop application managing tickets in a car parking lot.
- Leveraged Redmine, Subversion, and Trello to manage the project in a team of 6.
- Refactored outdated code and integrated 50% new functionalities of the project.

Teaching Assistant

January 2018 – December 2018

SUNY Plattsburgh, Plattsburgh, New York

- Coordinated review sessions for over 50 students studying Python and Discrete Math.
- Reinforce lessons presented by professors by covering materials with students one-on-one or in small groups.
- Monitor lab sessions and support student lab assignments.

EDUCATION

State University of New York at Plattsburgh

Resident Assistant

Major: B.S. in Computer Science

Overall GPA: 3.80

Graduation Date: December 2019

PROJECTS

DeliverIt – ReactJS, NodeJS

- Spearheaded a team of 6 people to build an online ordering app in a span of 3 months.
- Applied React JS to build dynamic web components.

Your Occasions - Cross-Platform Mobile App

- Designed and developed an event management app with Flutter.
- Utilized Heroku PostgreSQL, Google Cloud Platform, Cloudinary, and Firebase for back-end services.

Shuttler – Cross-platform Mobile App

- Design and develop a shuttle tracking mobile app to support students with identifying bus stop times for Coding Hub at SUNY Plattsburgh.
- Incorporated with Firebase Realtime Database to delivery fluid experience.
